Re: Chapter 1, Section 7, Subsection 7.4, Item 5: Special Requirements of NPDES Permit MN0025259 for the City of Willmar Wastewater Treatment Plant

Ben Koplin:

Per the Special Requirements Chapter 1, Section 7, Subsection 7.4, Item 5 of the City of Willmar's NPDES permit MN0025259, the permittee will provide the following:

- Starting January 1, 2006, the Permittee will provide quarterly progress reports on the wastewater treatment plant replacement.

After discussions with the local MPCA office in Willmar it was agreed that the City of Willmar would use it's "Monthly Report Summary" which is submitted to the Public Works and Safety Committee for review and Willmar City Council for approval, as the basis for the Quarterly Progress Report. The "Monthly Report Summary" identifies activities related to the Wastewater Treatment Plant Relocation and Conveyance System Project currently underway in Willmar.

This letter is intended to show evidence of compliance of the Special Requirements subsection 7.4, as required by the NPDES permit. A copy of the 4th Quarter 2006, Monthly Report Summaries for October, November and December are enclosed.

Sincerely,

CITY OF WILLMAR

Colleen Thompson
Superintendent
